How it has Been Revived Freight Handlers Walk-Out in Modern Times.

An ancient method of poisoning criminals was to force them to swal-low large quantities of bull's blood. Bull's blood is really no poison at all. Yet the prisoner usually died in agony. This was caused by the coagulation or hardening of the bull's blood in the stomach. The pressure of this solid mass on the heart, lungs and other vital

organs almost always resulted fatally. That's just like indigestion. If your food doesn't digest it remains in a hard lump in the stomach. Gases are formed, which crowd and sometimes actually displace other organs. Many cases of supposed heart disease are due to indigestion. The pressure upon the lungs interferes with breathing. A disordered stomach effects the whole body.

By the use of such a preparation as Kodol Dyspepsia Cure all this trouble is removed. Before food can be assimilated into the system it must be reduced to proper condition by the ditroubles can't be cured by dieting. The system demands both a sufficiency and a variety of food. Bells.

It was long a fixed idea that silver mixed with the bell metal improved the tone, but this is now considered incorrect. The Acton Nightingale and Silver Bell, two singularly sweet bells at St. John's college, Cambridge, are said to have a mixture of silver, but if true this is not believed by competent authorities to be the cause of their beautiful tone. This idea led to the story of the monk Tandio concealing the silver given him by Charlemagne and casting the bell in the monastery of St. Paul of inferior metal, whereupon he was struck by the clapper and killed. In the ninth century bells were made in France of iron. They have been cast in steel, and the tone has been found nearly equal in fineness to that of the bell metal, but, having less vibration, was deficient in length, and thick glass bells have been made which give a beautiful sound, but are too brittle to long withstand the strokes of the clapper.-Gentleman's Magazine.

The Inventor of the Match. The first match was the product of the ingenuity of John Frederick Komerer, who early in the nineteenth century was imprisoned in the penitentiary at Hohenasperg, in Germany. He invented the lucifer match while in his gloomy dungeon. The German government forbade the manufacture of matches on the ground of public policy, because some children playing with them had caused a fire. Komerer was ruined by Viennese competition when he was released from prison and died a pauper. Up to 1862 the Vienna manufacturers controlled the match busipess of the entire world.

Oyster Bay, July 15 .- The president has invited General Leonard Wood to visit him at Sagamore Hill early in August. General Wood is one of Mr. Roosevelt's closest friends and the president entertains a high regard for his executive ability. It is understood to be not unlikely that he may be appointed as the head of the commission.

It is a fact, testified to by thousands of healthy, happy men and women, that "Golden Medical Discovery" cures obstinate, deep-seated coughs, bleeding of the lungs, bronchitis, emaciation, weakness and conditions generally which, if neglected or unskilfully treated, find a fatal termination in consumption.

"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. D. J Robinson, of Spring Garden, West Va. "I tried many remedies; nothing seemed to help me till I commenced using Dr. Pierce's Golden Medical Discovery.
